SUMMARY

Data Science professional skilled in statistical modeling, machine learning, Python, SQL, Power BI, and Tableau. Passionate about solving business challenges through data-driven insights and eager to grow in the field of data science.

EDUCATION

B.E., Electronics and Communication Engineering
HINDUSTHAN INSTITUTE OF TECHNOLOGY

May -2024
8.65 CGPA

TECHNICAL SKILLS

Programming Language: Python, MYSQL

Technologies/ Frameworks: Machine Learning, Power BI, Advanced Excel, Tableau, Power Pivot, Conditional Formatting, Lookups.

Programming Libraries: Pandas, Numpy.

Developer Tools: Jupiter Notebook, Power BI Desktop, Tableau Desktop, MYSQL Workbench, DAX Query

Database System: MYSQL, POSTGRES SQL

INTERNSHIP

NOVITECH PVT. LTD.,

JUN -2022

VLSI DESIGNS

I completed an internship at NoviTech Pvt. Ltd., where I worked on VLSI design projects. During the internship, I gained hands-on experience in designing and optimizing integrated circuits. This opportunity deepened my understanding of digital design concepts and advanced electronic systems.

PROJECTS

Preciseness Smart Farm Agriculture Self-Determining Hanging Robot.

- A project aims to detect abnormal changes in agriculture to prevent damage, while a hanging robot system monitors industries continuously, controlled by a base station, optimizing tasks
- In response to erratic climate changes, Indian farmers adopt smart agriculture, utilizing IoT to reduce waste and enhance crop yield.

Zomato Delivery Analysis Dashboard | Power BI, MS EXCEL, Power Query

- Visualize KPIs such as order quantity, average delivery time, and customer satisfaction, analyze trends in customer preferences and peak periods, assess delivery efficiency by time, location, and cuisine, and provide actionable insights to optimize resources and improve delivery performance.

CERTIFICATION

- Infosys springboard ML with Python.
- Infosys springboard Database and SQL
- Infosys springboard introduction of BI
- NCC - A,B,C Certification

ACTIVITIES

- Completed IBM one day workshop on "Imagining Solutions for 2050", conducting by National Institute of Technology, Tiruchchirappalli.
- Attended a international paper presentation conference at Jai Shriram Engineering College and presented a paper on " An AI based crop stress detection system".
- Completed a paper presentation on " GUI based online voting machine " at Hindusthan Institute of Technology.
